  - Medical needs cannot exceed the resources available at FSC.
  - Medical needs cannot exceed the resources available at FSC.
Treatement Team

Case Facilitator / Case Planning

(Pre-Treatment Groups)
Increasing Treatment Readiness

In the treatment program, several objectives are outlined to ensure resident accountability:
- Improve self-esteem and self-confidence
- Enhance communication and problem-solving skills
- Focus on personal and professional growth
- Improve physical and mental health
- Increase resilience and self-esteem

The treatment plan is facilitated by the Case Management Team, offering courses and workshops to residents.

Each resident is assigned a case facilitator.

The NAS-PI evaluates 5 categories:

- Anger Inventory (NAS-PI)
- Provocation Inventory = Reflection on disruptive treatment interventions
- Cognitive, emotional, and behavioral reactions to anger
- Anger expression versus anger regulation
- Anger expression = Depressed, anxious, etc.
